SUMMARY

Frontend engineer with 3+ years shipping production-grade web and mobile applications across startup and enterprise environments. Specializes in React.js, Next.js, and Vue.js with a focus on component architecture, performance, and maintainability — including integrating AI coding tools into personal and professional development workflows.

EXPERIENCE

Samsung R&D; Institute Philippines · Taguig City

Feb 2025 – Mar 2026

Frontend Engineer · Full-time

- Delivered features across 5 consecutive releases (v3.31–v3.35), covering new development and regression fixes each cycle.
- Redesigned the multilingual feature architecture with a centralized form wrapper, collapsing multiple touchpoints into a single component.
- Eliminated duplicate API calls across the admin panel, reducing redundant network traffic and improving load performance.
- Migrated global state from localStorage to Redux Toolkit, improving predictability and debuggability across the codebase.

Sarisuki Stores Inc. · Muntinlupa City

Nov 2024 – Jan 2025

Front-End Consultant · Part-time

- Built a PWA from the ground up (Next.js, TypeScript, Tailwind CSS, Ionic, Capacitor) covering home, search, and product flows.
- Integrated Google Maps, Algolia search, and SMS OTP into core user flows; managed client-side state with Zustand.

Sarisuki Stores Inc. · Muntinlupa City

Oct 2022 – Oct 2024

Software Engineer · Full-time

- Led a team of five through the Talon.One rewards platform integration, coordinating with vendors and internal teams to deliver on schedule.
- Shipped an internal B2B admin portal from scratch (Vue.js, Tailwind CSS) that cut invoicing turnaround by 75% within five months.
- Rebuilt the Webstore UI for a full company rebrand (React.js, Tailwind CSS) and led mobile work on the Supah app (Flutter, GetX) and CL app analytics (MoEngage, BLoC).

Infor PSSC Inc. · Taguig City

Mar 2022 – Sep 2022

Associate Software Engineer · Full-time

- Onboarded onto Lawson's Mobile Supply Chain Management; led a reverse knowledge-transfer session for the team, resolved Java bug tickets, and refactored legacy modules for stability.

PROJECTS

Bu-Hao Minton

2026

buhaominton.vercel.app · github.com/schuy3r/bu-hao-minton

Next.js 16, React 19, TypeScript, Tailwind v4, Zustand

Mobile-first badminton session manager — a live queue tool for running actual games at the court, used on your phone while standing there with your group.

Site Visit Scheduler

2026

site-visit-scheduler.vercel.app · github.com/schuy3r/site-visit-scheduler

Next.js 16, React 19, TypeScript, Tailwind v4, dnd-kit, Zustand

Field visit planner for Metro Manila — traffic-aware travel estimates, number-coding rules, drag-and-drop scheduling. Started as a single HTML file; rebuilt in Next.js using Claude Code.

EDUCATION

De La Salle University Manila · BS Computer Science · Cum Laude

2017 – 2021

AWARDS & RECOGNITION

Team Member of the Month · Samsung R&D; Institute Philippines

Nov 2025

Best Paper Award · 2022 International Conference on Asian Language Processing

Oct 2022

Best in Project Implementation – NSTP · COSCA, De La Salle University Manila

Sep 2018

Outstanding Junior Officer · La Salle Computer Society, DLSU Manila

Feb 2018

TECHNICAL SKILLS

Frontend	JavaScript, TypeScript, React.js, Next.js, Vue.js, Redux Toolkit, Zustand, Pinia, Tailwind CSS, PWA
Mobile	Flutter (GetX, BLoC), Capacitor, Ionic Framework
Backend & Tools	Node.js, Python, Django, Java, C, Git, Jenkins, Postman, MongoDB, MySQL
Methodologies	Agile, Scrum, Kanban, CI/CD
